Dear Ricardo

You should have received a letter from Anne Colham at the University asking for your permission for a copy of your dissertation to be deposited in the University Library. No doubt you realise that this is a result of the excellence of the dissertation. I would just like to add my word of congratulations on behalf of IDS. Your MPhil group produced work of a very high academic standard; the meagre attendances at IDS discos were clearly for a good cause!

Regards

A handwritten signature in cursive script that reads 'Mick'.
